

SHORT MESSAGE GATEWAY, SYSTEM AND METHOD OF
PROVIDING INFORMATION SERVICE FOR MOBILE TELEPHONES

ABSTRACT

5 A short message service gateway (120), comprising: a
short message interfacing device (126,127) for
receiving/sending short messages from/to outside of the
short message service gateway (120); a short message service
engine (121), in response to a request for information
10 service included in a short message received by the short
message interfacing device, for requesting the information
service from at least one application server (110) and
receiving result of the information service, and then
sending the result of the information service back to the
short message interfacing device in a form of short message.
